

# SAHIDHUSEN MUKDIWALA

Full Stack Developer (MERN Stack) | Vibe Coding Enthusiast

shahidhusenmukdiwala1@gmail.com | +91 9313162710 | Ahmedabad, Gujarat | [GitHub](#) | [LinkedIn](#)

## PROFESSIONAL SUMMARY

Full Stack Developer with 1+ year of hands-on experience building scalable MERN Stack (MongoDB, Express.js, React.js, Node.js) web applications. Proven ability to develop responsive UIs, design RESTful APIs, and optimize backend performance — including a 35% reduction in API response time. Experienced with AI-assisted development tools (GitHub Copilot, ChatGPT) to accelerate coding, debugging, and documentation workflows. Star Employee Q4 2025 and SSIP Hackathon 2022-23 Finalist. Passionate about clean code, system design, and delivering high-quality software solutions.

## TECHNICAL SKILLS

**Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, jQuery, Responsive Web Design

**Backend:** Node.js, Express.js, RESTful API Development

**Databases:** MongoDB, MySQL

**AI-Assisted Development:** GitHub Copilot, ChatGPT, AI-powered code generation, debugging, and documentation

**Tools & Practices:** Git, GitHub, Cloudinary, Unit & Integration Testing (80%+ coverage), Agile Methodology

## PROFESSIONAL EXPERIENCE

### Full Stack Developer

September 2024 – Present

Junkies Coder | Himatnagar, Gujarat

- Built modern, responsive web applications using the MERN Stack (MongoDB, Express.js, React.js, Node.js), implementing UI/UX best practices across web and mobile platforms.
- Designed and developed RESTful APIs with Node.js and Express.js, ensuring secure JWT-based authentication, efficient data handling, and seamless frontend-backend integration.
- Optimized database queries and API endpoints, achieving a 35% reduction in average API response time, resulting in measurable improvement in application performance and user satisfaction.
- Managed and optimized databases using MongoDB and MySQL; designed efficient schemas and data models to meet complex application requirements.
- Leveraged AI-assisted coding tools (GitHub Copilot, ChatGPT) for development, debugging, code documentation, and productivity improvements in daily workflows.
- Implemented comprehensive unit and integration testing strategies, maintaining 80%+ test coverage and significantly reducing post-deployment bugs.
- Awarded Star Employee of the Quarter (Q4 2025) for outstanding performance, dedication, positive attitude, and consistent technical excellence.

## PROJECTS

### Hospital Management System | React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Developed a full-stack MERN web application for online patient-doctor connectivity and end-to-end healthcare management.
- Implemented secure role-based access control (RBAC) for patients, doctors, and administrative staff using JWT authentication.
- Built an appointment scheduling module with real-time availability updates and an automated notification system.

### Employee Management System | React.js, Node.js, Express.js, MySQL | SSIP Hackathon 2022-23 Finalist

- Co-led a 4-member team to build a comprehensive employee management solution, recognized as a finalist among 100+ teams at the state-level SSIP Hackathon 2022-23.

- Developed an employee onboarding module with automated workflow management, document processing, and training assignment features.
- Implemented an attendance tracking system with biometric integration, leave management, and automated reporting.
- Built performance management features including goal setting, periodic reviews, and analytics dashboards for management insights.

## EDUCATION

---

### Bachelor of Engineering in Computer Engineering

Graduated 2024

Government Engineering College, Patan, Gujarat | CGPA: 7.72/10.0

## ACHIEVEMENTS

---

- Star Employee of the Quarter – Q4 2025 at Junkies Coder: Recognized for outstanding performance, commitment, and consistent technical excellence.
- SSIP Hackathon 2022-23 Finalist: Competed successfully against 100+ teams at a state-level innovation competition, demonstrating technical prowess and problem-solving capabilities.
